Tolerance

Openness
Care
Honesty

Sun Smart Policy

This policy applies to all Nazareth Primary School events on and off site.

RATIONALE

This SunSmart policy provides guidelines to:

- Ensure all students and staff have some UV exposure for vitamin D.
- Ensure all students and staff are well protected from too much UV exposure by using a combination of sun protection measures whenever UV levels reach 3 and above.
- Ensure the outdoor environment is sun safe and provides shade for students and staff.
- Ensure students are encouraged and supported to develop independent sun protection skills.
- Support duty of care requirements
- Support appropriate OHS strategies to minimise UV risk and associated harms for staff and visitors

BACKGROUND

Too much of the sun's UV can cause sunburn, skin and eye damage and skin cancer. Exposure to the sun's UV during childhood and adolescence is associated with an increased risk of skin cancer in later life. Too little UV from the sun can lead to low vitamin D levels. Vitamin D is essential for healthy bones and muscles, and for general health.

Legislation and Standards

- Occupational Health and Safety Act 2004
- Education and Training Reform Act 2006: Sch.5 Reg. 1 (1.2)

PROCEDURES

- Staff and students are encouraged to access the daily local sun protection times at sunsmart.com.au or on the free SunSmart app to assist with the implementation of this policy.
- A combination of sun protection measures are used for all outdoor activities from **mid-August to the end of April** and whenever UV levels reach 3 and above.

Healthy physical environment

1. Seek shade

- A shade audit is conducted regularly to determine the current availability and quality of shade.
- Nazareth School Advisory Committee makes sure there is a sufficient number of shelters and trees providing shade in Nazareth Primary School grounds particularly in areas where students congregate e.g. lunch, outdoor lesson areas and popular play areas.
- The availability of shade is considered when planning all other outdoor activities and excursions.
- In consultation with the Nazareth School Advisory Committee, shade provision is considered in plans for future buildings and grounds.
- Students are encouraged to use available areas of shade when outside.
- Students who do not have appropriate hats or outdoor clothing are asked to play in the shade or a suitable area protected from the sun.

Healthy social environment

2. Slip on sun protective clothing

- Sun protective clothing is included in our school uniform / dress code and sports uniform. School clothing is cool, loose fitting and made of densely woven fabric. It includes shirts with collars and elbow length sleeves, longer style dresses and shorts.

3. Slap on a hat

- **All** students and staff are required to wear hats that protect their face, neck and ears, i.e. legionnaire, broad brimmed or bucket hats, whenever they are outside. Baseball or peak caps and visors are not considered a suitable alternative.

4. Slop on sunscreen

- Students must provide their own SPF 30 or higher broad spectrum, water resistant sunscreen.
AND
- Nazareth Primary School supplies SPF 30 or higher broad spectrum, water resistant sunscreen for staff and student's use.
- Sunscreen is applied at least 20 minutes (where possible) before going outdoors and reapplied every two hours if outdoors.
- Strategies are in place to remind students to apply sunscreen before going outdoors (e.g. reminder notices, sunscreen monitors, sunscreen buddies).

Learning and skills

- Programs on skin cancer prevention and vitamin D are included in the curriculum for all year levels.
- SunSmart behaviour is regularly reinforced and promoted to the whole school community through newsletters, school homepage, parent meetings, staff meetings, school assemblies, student and teacher activities and on student enrolment.

Engaging children, educators, staff and families

Staff and families are provided with information on sun protection and vitamin D through family newsletters, noticeboards and the service's website.

As part of OHS UV risk controls and role-modelling, when the UV is 3 and above staff, families and visitors:

- wear a sun protective hat
- apply sunscreen
- seek shade whenever possible

MONITORING AND REVIEW

- The Nazareth School Advisory Committee and staff regularly monitor and review the effectiveness of the SunSmart policy (at least once every three years) and revise the policy when required by completing a policy review and membership renewal with SunSmart at sunsmart.com.au.
- SunSmart policy updates and requirements will be made available to staff, families and visitors.
